Extract of a Letter from Dominica, October 17.

"WE lately have had a complication of exceeding bad weather, such as hard gales of wind, continued torrents of rain, and a most dreadful surf, with the wind at south-west for 48 hours; a length of horrors never experienced before by the oldest inhabitant. A Guinea ship, capt. Dowse's brig, and one from Newfoundland, with two schooners, were drove on shore and dashed to pieces. The lives of the crews were in the greatest danger, and few would have escaped had not the garrison been turned out and sent to their assistance."

BRIDGE-TOWN, *(Barbados) Nov.* 1, 1766.

On Monday the 27th ult. between six and seven o' clock in the morning, a slight shock of an earthquake was felt here, which continued but a few seconds, and did no damage.

Extract of a letter from a Gentleman at Essequebo, dated October 22, 1766.

"Capt. Platt, I make no doubt, agreeable to my request, will wait on you and acquaint you of my distress of mind, occasioned from a most severe earthquake which happened on this land yesterday morning about four o' clock.

NOVEMBER 22.

Extract of a letter from Essequebo, dated October 26.

"I cannot omit to inform you, that on Tuesday morning last, about 5 o' clock, we had two dreadful shocks of an earthquake, that lasted about three minutes from the time I felt it; but my overseer, who was then about his business, tells me it was gradually coming on for upwards of two minutes before that time. So great was the agitation of the earth, that I expected momently every building I had would have fallen to the ground. Nothing but a confused noise in the air, with an uncommon roaring of the wind, and the cracking of the houses, and falling of some of the walls, was to be heard for a considerable time. Most of the buildings here have received some damage, tho' none entirely thrown down. My horses and mules appeared to me seemingly so sensible of the alarm, that, immediately on opening the door of the stable, they rushed out in the greatest hurry and confusion imaginable. Friday night last we had two shocks more, though not so severe as the former; yesterday and last night several smaller ones; indeed, the whole week past I have been under dreadful apprehensions of the consequences, should we have any more such shocks. My people as well as myself, for these two days past, have been constantly alarmed; nor can I persuade myself but that there is a constant agitation in the earth; nor do I expect any change till we are blest with some heavy showers of rain, it being now, and has been for some time past, very dry, hot, and sultry. I have this instant thrown down my pen from a small shock and roaring that I hear at a distance. You no doubt must conclude, that whilst I am writing this I am under great anxiety and uneasiness of mind, not knowing how soon I may have the house tumbling about my ears. Various, I suppose, will be the accounts handed from hence of this melancholly affair, some of which, as on every such occasion, will no doubt be exaggerated; but what I write, you may depend on, is within the compass of my own knowledge."

DECEMBER 29.

By Capt. Styles, from Anguilla, we are informed, that on the first instant the sloop Bee, William Robinson, master, from South-Carolina, was run over the reef, and still lies there. They report that the master was drowned, but there is great reason to believe both he and the mate were murdered. She was loaded in Charles-Town by Col. Laurens, and is said to belong to John Turnbull, of Liverpool, and bound to Grenada.

On Saturday evening last, between the hours of nine and ten o' clock, a fire broke out in a store situated to the windward of the dwelling house of Messrs. Paul Bedford and Co. the flames communicated themselves to the said dwelling-house, from thence to the buildings of Gidney Clarke, Esq; and took its course all the way to the Stepping Stones wharf. On the other hand (notwithstanding the wind was very high, and blew from the north-east) it took its course up one side of the Green, carrying before it every building from that of John Hall, Esq; to that of Mr. Duncan, near the church, including in the destruction the house tenanted by Ireneus Moe, Esquire. To mention the exact number of buildings destroyed by this fire is impossible at present, but according to computation, upwards of forty principal dwelling-houses, besides stores, have fallen a sacrifice to the flames. To what means this unhappy accident was owing, is very uncertain; but such is now our miserable situation, that those very stores which providentially escaped the late dreadful conflagration, and whose humane owners contributed so much to the relief of the poor sufferers thereby, are now destroyed, and with them almost every lumber yard in town. In short, words can but faintly convey an idea of the distresses of the inhabitants, whose lamentations pierced the air, and must have drawn forth pity from the most obdurate heart.

St. George's-Town, Grenada, October 25, 1766.

This island, whose happy situation has hitherto screened it from those accidents, which lately befel almost all the neighbouring ones, was on the 21st instant exposed to very great danger, by the most alarming earthquake that has been felt for many years. It began about 5 o' clock in the morning and continued without intermission for about two minutes in a direction from about S. E. to N. W. a duration of which perhaps there is hardly an example. However, very providentially, no damage has happened in town; but the country has not escaped so well, as several stone buildings on many estates, particularly to windward, have been shattered, and others have lost their roofs. On the 24th at night, two more shocks were felt here, without doing any hurt. They write from St. Vincent and Carriacou, that it was also felt in both those islands at the very moment it happened here; but the accounts received from Trinidad, by a launch which arrived yesterday, are truly dreadful. The description they give of it is beyond conception. They alledge that the face of the island is totally changed, whole mountains being levelled, and that the earth was so strongly agitated as to make it impossible to stand one single foot.

CARVER'S WHARFF,

At *GOSPORT*,

BY the many additions and improvements lately made, is the most convenient in England for clearing rice, &c. &c. The largest ships that come from Carolina can lay a-float at all times of tide, and as the wharff is now covered, rice can be shifted in any weather.—The post going to and from London, every day, makes it very convenient, and skins, indico, or such other goods, as are often sent by land, may be immediately conveyed by waggons to London. Any number of porters may be had in order to dispatch business, and many other advantages attend the proprietors of ships and cargoes, too tedious to mention.

To be Lett,

And may be enter'd upon immediately.

CHARLES-TOWN, *January* 26, 1767.

THE exportation of INDIAN CORN continues, altho' that grain now sells at *Twenty Shillings* per bushel, and by accounts from most parts of the country there is a manifest appearance of an approaching scarcity.

Tuesday the 20th instant, died in St. Thomas's parish, at the advanced age of 77 years, Mrs. MARY-ANNE BOURDEAUX, a native of this province.

The brigantine Pompey, Benjamin Torbert master, from Philadelphia, for Cape-Fear; and a sloop, Anthony Ashmore master, from Philadelphia for Maryland, but blown off; were both lost about three weeks ago, the latter 30 miles to the northward of, and the latter on, Cape Look-Out shoals; the people and part of the cargoes of both were saved.

Last Saturday his Majesty's ship Sardoine, commanded by James Hawker, Esq; and her tender, returned from a cruize.

The following having been recommended to us as the best directions that ever were published for the making of HEMP, they are inserted in this paper, for the benefit of the hemp planters in this province.

THE particular methods made use of by the principal people that raise hemp in GREAT-BRITAIN, which differ not at all from that made use of by the people in RUSSIA, viz.

1. The land to be strong and wrought up fine.
2. To sow about the 20th of March to the 20th of May.
3. To sow about ten pecks to an acre
4. Let it stand about thirteen weeks
5. When it is ripe, it will turn yellow and the leaves drop
6. Pull it, and tye it with the under hemp in bunches about two spans

TO DEW-ROT

1. Lay it on the land
2. Spread it at such a distance as a person can walk between the rows
3. Turn it often when it is dry
4. When you rub it, if it is enough it will come clear from the stalk at the head
5. Get it in bunches, and tye it with its own
6. When it is dry, get it in and keep it so
7. Then dress it with the hemp-brakes

TO WATER-ROT

1. Tye it in bunches as the other
2. Make beds about sixteen feet square and two feet deep
3. Keep it under water, but not to touch the bottom
4. To know when it is enough, put your hand in the middle of the bed, and if it feels soft and slimey, then get it on the land and spread it as the other; and when dry, get it in and keep it so, and dress it as the other.

N. B. Having likewise made myself thoroughly acquainted with every clause in the act for the bounty on Hemp from the British plantations; it is highly recommended, that such hemp be ship'd well broke and clean'd, with a certificate of its growth.

CHRISTOPHER GADSDEN,

WANTS, as soon as they can be got, about *Five Hundred* PINE LOGS, with the bark on, from 16 to 18 feet long, and from 10 to 12 inches thick.

I HAVE appointed Messrs. CARNE & WILSON my Agents, for the sale of my MEDICINES in CAROLINA; and all persons may be supplied wholesale and retale by them.

A List of Dr. Hill's Medicines sold by Messrs. CARNE & WILSON.

1. PECTORAL BALSAM or HONEY, For colds, coughs and asthmas. A common cold is often cured, and all the bad consequences prevented that might have followed, by a single dose. These complaints are so common, that no family should be without the medicine.

2. ESSENCE or WATER-DOCK, For the certain cure of the scurvy and all breakings out. It never once failed in many thousand instances.

3. TINCTURE or CENTAURY, A stomachic bitter, that gives a healthy appetite and sound digestion, a certain cure for all weaknesses and disorders in the stomach.

4. ELIXIR or BARDANA, For the gout and rheumatism. This re-establishes the health after the fits of the gout, shortens such as follow, and eases the pain. For the rheumatism it is a certain cure, and the disease never returns.

5. TINCTURE or SAGE, To lengthen life, and keep off the decays of age; as tremblings, deafness, and all other the weaknesses of an advanced life.

6. TINCTURE or VALERIAN, For disorders of the nerves, low spirits, faintness, head-achs, and all kinds of fits.

*** *All these are pleasant, innocent and efficacious medicines, discovered by the author, in the course of his study of plants, and so safe, that infants may take any of them in a proper dose.*
